

PREMIERE 2017

Solderpaste- Doser

TD¹⁰⁰

Discover the benefits
of the unique TD100 von
VOLAND Automation:

- Contact-free metering
- Metering distance 100 mm and greater
- Metering in inaccessible areas, deep cavities or 3D MIDs
- No problems caused by variegating distances
- No expensive Z-axis system with height sensor and positioning function required
- No risk of collision between metering system and component
- Metering at precise volumes
- No negative influences on the metering volume due to temperature-related viscosity changes
